Note 1 - Information required to be provided

The following information must accompany applications for construction certificates for building works.

For Building Work – Section 8 of the EP&A (Development Certification & Fire Safety) 2021.

The application must be accompanied by:

- (a) a detailed description of the development, and
 - (b) appropriate building work plans and specifications (referred to in this Part as **relevant building work plans and specifications**).
- 1) The detailed description of the development must indicate the following matters:
- a) for each proposed new building:
 - (i) the number of storeys in the building, including underground storeys, and
 - (ii) the gross floor area of the building in square metres, and
 - (iii) the site area of the land on which the building is to be erected in square metres
 - b) for each proposed new building to be used for residential accommodation:
 - (i) the number of existing dwellings on the land on which the new building will be erected, and
 - (ii) the number of existing dwellings that will be demolished in connection with the erection of the new building, and
 - (iii) the number of dwellings to be included in the new building, and
 - (iv) whether the new building will be attached to an existing building, and
 - (v) whether the new building will be attached to another new building, and
 - (vi) whether the building will include a dual occupancy, and
 - (vii) the materials to be used in the construction of the new building, using the abbreviations.
- 2) The appropriate building work plans and specifications must include the following:
- a) detailed building work plans, drawn to a suitable scale and consisting of a block plan and a general plan, that show the following:
 - (i) a plan of each floor section
 - (ii) a plan of each elevation of the building
 - (iii) the levels of the lowest floor, an unbuilt yard or area that belongs to the lowest floor and the adjacent ground
 - (iv) the height, design, construction and provision for fire safety and fire resistance, if any
 - b) building work specifications that:
 - (i) describe the construction and the materials to be used to construct the building and
 - (ii) describe the method of drainage, sewerage and water supply, and
 - (iii) state whether the materials to be used are new or second-hand and contain details of any second-hand materials to be used,
 - c) a description of an accredited building product or system sought to be relied on for the purposes of the Act, section 4.15(4);

- d) a copy of a compliance certificate to be relied on;
- e) if the development involves building work to alter, expand or rebuild an existing building—a scaled plan of the existing building;
- f) for BASIX development, or for BASIX optional development if the development application was accompanied by a BASIX certificate, the other matters required by the relevant BASIX certificate.

Where the proposed building work involves any alteration or addition to, or rebuilding of, an existing building the general plan is to be coloured or otherwise marked to the satisfaction of the certifying authority to adequately distinguish the proposed alteration, addition or rebuilding.

Where the proposed building work involves a modification to previously approved plans and specifications the general plans must be coloured or otherwise marked to the satisfaction of the certifying authority to adequately distinguish the modification.

Evidence of any accredited component, process or design sought to be relied upon.

Except in the case of an application for, or in respect of, a class 1a or class 10 building:

- A list of any fire safety measures that are proposed to be implemented in the building or on the land on which the building is situated, and
- If the application relates to a proposal to carry out any alteration or rebuilding of, or addition to, an existing building, a separate list of such of those measures as are currently implemented in the building or on the land on which the building is situated.

The list must describe the extent, capability and basis of design of each of the measures concerned.

Note 2 - Home Building Act Requirements

A certificate of insurance under Part 6 of the *Home Building Act 1989*, or

In the case of work done by any other person: A statement detailing the person's name and owner-builder permit number.

Note 3 - Building Industry Long Service Levy Requirements

Under S 6.8 of the *Environmental Planning and Assessment Act 1979* and Section 4.28 (10A) for Complying Development, a Construction Certificate and a Complying Development Certificate cannot be issued until any long service levy payable under section 34 of the *Building and Construction Industry Long Service Levy Payments Act 1986* (or where such a levy is payable by instalments, the first instalment of the levy) has been paid. Council is authorised to accept payment. The levy rate as at (1 January 2023) is 0.25% of the total cost of the work where the cost is \$250,000 or more.
